      - The last six months have been busy with the strategic planning process and its approval, as well as plans for updating the Divisional bylaws.
      - Hudson Award Funding: National Starch no longer wants to support this award and a new sponsor will need to be found. National Starch is committed to supporting the award in 2011, but in 2013 a new sponsor will be needed.

   c. Secretary – Todd Lowary
      - The Division held this year’s election by electronic voting, which was a success. The firm used, Campus Vote, handles the elections for many of the ACS Divisions. There was about 30% participation by the Division membership, which according to Campus Vote is high compared to other Divisions of the ACS.

- Secretary, Xuefei Huang
- Treasurer, Zbigniew Witczak

- It was commented that the upcoming DC council meeting did not have much of direct relevance to CARB. However, it was pointed out that a discussion about the criteria to allow membership in the ACS will be discussed. The proposed plan would reduce the background in chemistry needed to be a member.

f. Nomenclature Committee – Derek Horton

- The nomenclature committee report was distributed and discussed.

3. Old Business

a. Strategic Planning

- Gillian presented an overview of the process and summarized the voting process to be used in approving the plan. Each point of the plan was summarized and discussion followed.
